- 13 Cal OES Public Safety Communications (PSC) Technicians assigned

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

FIRE ACTIVITY

Soberanes, Vegetation Fire, Monterey County

Activations

Per Cal OES Coastal Duty Officer (CDO):

- [Monterey County EOC will be going to Level 1 as of 1832 hours on 08/03/16, duty officer status. Will resume Level 2 at 0800 hours on 08/04/16](#)
- 1 Regional Emergency Services Coordinator (ESC) deployed to Monterey County EOC.
- The Cal OES Coastal Region EOC is activated at Level 2 from 0800-2000 in support of Monterey County and will continue at Level 2 through the week.

Proclamations

- On 07/26/16 Acting Governor Tom Torlakson issued emergency proclamations for Los Angeles and Monterey counties due to the effects of the Sand and Soberanes fires, which have burned tens of thousands of acres of land, threatened thousands of homes and structures and caused the evacuation of residents.
- On 07/24/16, Monterey County, proclaimed a Local Emergency due to the Soberanes Fire. There are no requests for state assistance.

FMAG

- On 07/28/16 at 1852 hours the FMAG was approved by FEMA, FM-5137.

Critical Infrastructure

- PG&E has set up base camp at CSU Monterey Bay (CSUMB) and will be assisting with power outages in the area near Big Sur.
- Per the Cal OES CDO as of 07/30/16, the fire has impacted 60 KV power transmission lines.
- Per the Cal OES Telecommunications Duty Officer (TDO) on 08/01/16 at 0940 hours: The Black Mountain State Repeater Site is functional and operational with generator power only at this time; PG&E has no estimated time of restoral of power
- Per the Cal OES CDO as of 08/02/16, PG&E and Damage Assessment Teams went out on 08/03/16.

Critical Infrastructure Deployments

Per Cal OES Telecommunications Duty Officer (TDO):

- Communications Coordinator responding to ICP
- Frequency Coordination of VTAC and UTAC frequencies
- MIGU-2 for Interoperability communications support
- Providing 15 Iridium Phones from Cal OES Cache
- Coordinated 20 Iridium Phones from Satellite Vendor
- TCOM working with Guard and COML for AVL solution
- Providing communications support for Coastal Region

FIRE ACTIVITY

Sobranes, Vegetation Fire, Monterey County

Evacuations

Per the Cal OES LDO as of 08/03/16 at 0910 hours:

- Monterey County Sheriff's Department is reporting that they still have mandatory evacuation orders in place for the following areas. This represents approximately 400 residents.
 - Pala Colorado Area
 - Cachzua Area
 - Tassajara Area

Shelters

- A Red Cross shelter has been established at All Saints Day School, 8060 Carmel Valley Road, Carmel-By-The-Sea.
 - [Midnight Shelter Count: 4.](#)
- The Monterey Calvary Church, 3001 Salinas Highway, Monterey was opened by the church pastor for people tent camping outside.
 - Monterey Calvary Church is allowing evacuees to use the bathrooms and showers during the day from 0900 – 1700 hours.
 - [Midnight Shelter Count: 15-20.](#)
- County Social Services are also available to assist.
- There are no AFN issues reported at this time.
 - The EOC has been monitoring concerns and has developed a plan to ensure AFN needs are met, including transportation during an evacuation, and while at a shelter.
- The Department of Health and Human Services (DHSS) has been in touch with their regular clients to determine if they have any needs or impacts.

Health and Medical

- The San Joaquin Valley Air Pollution Control District has issued an air quality alert due to smoke impacts in San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare Counties, and the valley portion of Kern County from the Sobranes fire.

Per Cal OES CDO:

- Monterey Air Quality Board has issued an advisory. More information can be found at: <http://mbard.org/air-quality/>.
- Monterey Bay Air Resources District has placed and activated a total of 12 Air monitors

FIRE ACTIVITY

Sobranes, Vegetation Fire, Monterey County

Recovery

- A one-day Local Assistance Center (LAC) with local, state, and non-profit agencies will open on Saturday 08/06/16, from 0900-1500 at the Carmel Mission Inn, 3665 Rio Road, Carmel, CA 93923. The LAC will offer information and services to assist residents with recovery efforts.
- The county is developing a plan to perform damage assessments and to perform debris removal, when it is safe to do so.
- Community meetings have been taken place nightly at 1800 hours.
- Representatives from CAL FIRE, USFS Los Padres National Forest, Monterey County and Monterey County Sheriff's Office will be present to discuss details of the fire, its progress and recovery efforts.
- Donations are being managed by Recovers.org www.MontereyCountyRecovers.org. So far they are able to manage all donation requests.
- The Sheriff's Office will be coordinating a shuttle this week to allow residents of evacuated areas in for a brief time to survey damages.
- Damage assessments were conducted on 08/03/16 with PG&E to see if some residents can go into the cold burn areas.

FIRE ACTIVITY

Sand, Vegetation Fire, Los Angeles County (FINAL)

Location: 14 Fwy X Sand Canyon Rd, 1 mile south of Santa Clarita

Type 2 IMT, FRA

Start Date/Time: 07/22/16 at 1411 hours

Per CALFIRE, Cal OES Duty Officers and ICS-209 as of [08/03/16 at 1754 hours](#):

- 41,432 Acres, 98 % Contained
- 19 Residential Structures Destroyed, 1 Other Minor Structure Destroyed
- 1 Single Residence Damaged, 5 Other Minor Structures Damaged

Resources Assigned

- 10 Local Government engines
- 1 Cal OES Support Units

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

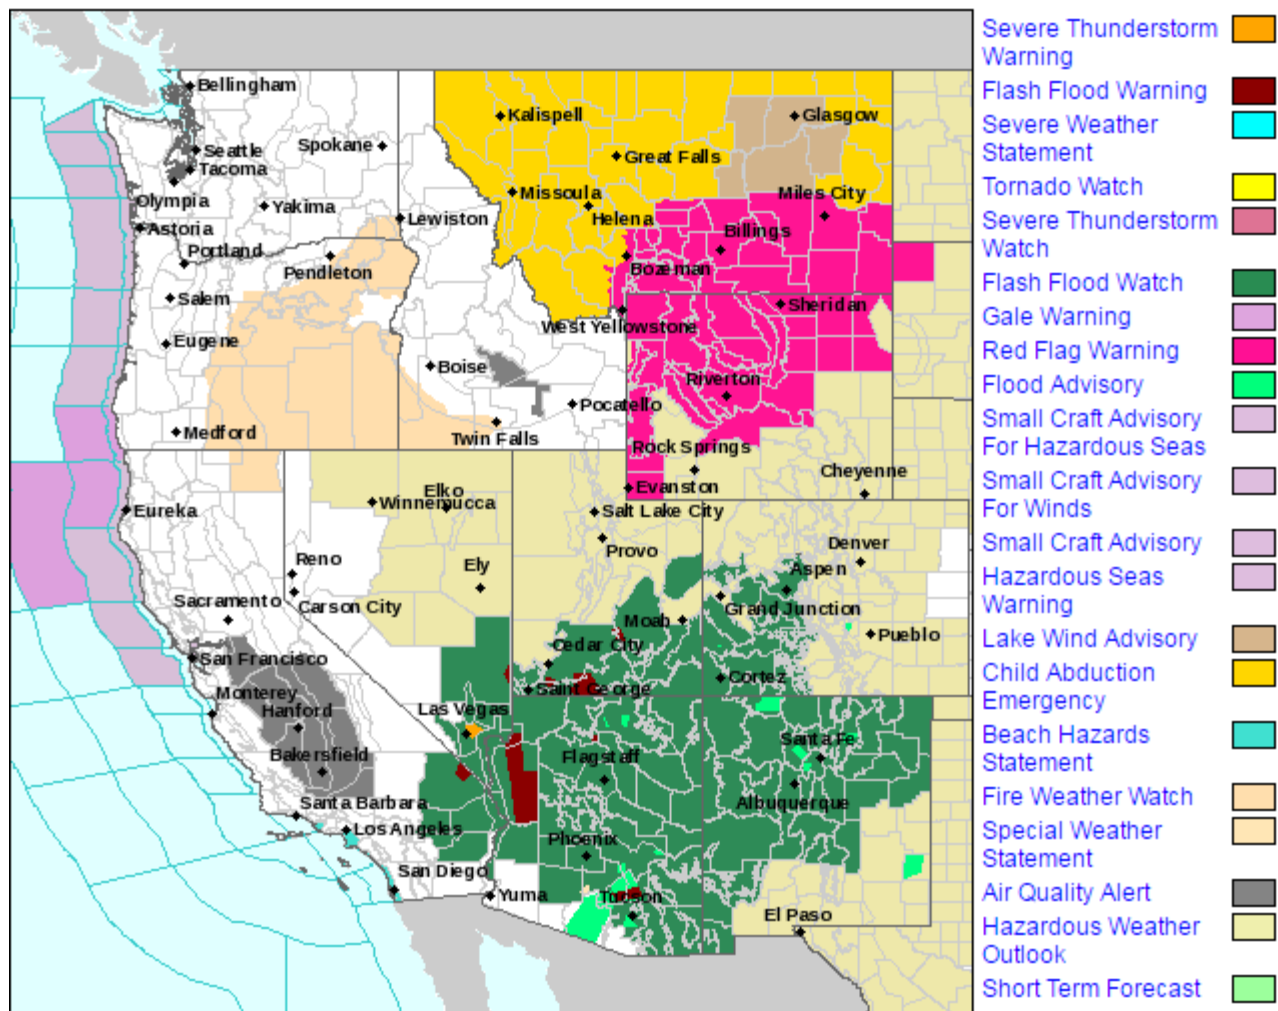

Chance of very isolated afternoon/evening thunderstorms in the far northern areas, mainly Friday and Saturday. A low pressure trough along the Washington/Canadian border will be moving east today and its southern edge will continue to keep Northern California under a dry flow pattern. A weak low pressure trough will develop over the region Thursday, and some form of it will linger over the region through the middle of next week. A bit of moisture will make it into Northern California over the next few days, and some very isolated afternoon and evening thunderstorms could develop in the far northern areas as early as Thursday, but such thunderstorms look a bit more probable Friday and possibly Saturday. Any lightning would be rather dry. High Risk designations for the possible lightning are not in place at this time, mainly because there would likely be very few storms with limited amounts of lightning. The warmest inland valleys will be around 103 today, and it will probably be the warmest we'll see for the next week. Afternoon RH values will commonly be in a range of 5-15% away from the marine layer. Overnight recoveries will vary considerably, but in general, expect mostly moderate recoveries and thermal belt conditions to develop where some poor recovery could occur. As the trough settles in over the region, the coastal marine layer will become fairly deep for this time of year at around 1500-2000 ft thick. Coastal low clouds and patchy fog will return. Winds will generally be of local diurnal patterns for the 7 day period, but moderately strong, daily gusty afternoon winds will also be likely to develop in The Delta region.

SOUTHERN CALIFORNIA

Monsoonal moisture will continue to bring scattered showers and thunderstorms to the deserts bordering Nevada and Arizona through Thursday. Isolated afternoon showers and thunderstorms will also be possible across the San Bernardino National Forest and surrounding desert locations through Thursday. High pressure over Southern Nevada will maintain near to a little above normal temperatures today, with 80s to low 90s across the mountains and 90s to 102 in the valleys. A weak Pacific trough will develop over the West Coast bringing a little below normal temperatures to the region Thursday through early next week. Minimum humidity will be mainly in the single digits and teens across Central California and between 20% and 40% across Southern California through Thursday. Minimum humidity will drop into the single digits and teens across the entire area above and inland from the marine layer Friday through early next week. The marine layer will deepen Thursday and Friday, with morning low clouds and fog making it over most coastal valley locations Friday through early next week. Southwest to west afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert locations Thursday through early next week. There will also be local northwest winds of 12 to 25 mph across the South Coast of Santa Barbara late afternoons and nights Thursday through early next week.
